MANAGEMENT DISCUSSION & ANALYSIS

Operations During the year

Valencia being Nutrition Company foremost, we took call to remove sucralose from our formulation by adopting safer sweetener Stevia. As peculiar to Stevia, it releases bitter nod that have to be masked for consistency in sweetness of the beverage. A Mumbai based vendor suggested a masking agent Sav-R-Sweet from Ohly GmbH.

In April, we began production effort for 200ml Bounce VitaFizz, crafting 12,000 cases tailored for the extensive markets of Tamil Nadu, particularly focusing on Chennai. This move aimed to bolster our presence in the wholesale sector as well. However, the initial batch encountered a significant challenge due to a formulation issue linked to the Stevia masked with Sav-R-Sweet. This step led to a departure from preferred sweetness levels, resulting in the rejection of the entire batch.

Undeterred, we navigated the aftermath of this market challenge, ultimately selling off the April production cycle successfully by August. Our brand's resurgence was marked by a robust revival, though accompanied by a considerable recovery process. During the interim period until July, a strategic pause ensued to explore alternative Stevia sourcing.

Following careful vendor assessments, we forged a significant partnership with Pure Circle, USA, a respected supplier known for diverse Stevia offerings. This collaboration led to thorough laboratory trials. This effort yielded a finely blended Stevia variant, achieving an optimal sweetness profile following exhaustive tasting sessions.

The subsequent month confirmed the wisdom of our choice, as we identified a suitable Stevia source for our product formulation. Yet, the monsoon season prompted a brief industry-wide off-season pause. Production resumed in mid-September, capitalizing on these insights, although new sweetness-related challenges arose within 20 days of sales.

Discussions with Pure Circle Stevia revealed a crucial insight - the chosen Stevia variant had a shelf life of just one month, causing sweetness to degrade and bitterness to develop. Given our commitment to a 6-month shelf life, this issue was untenable.

In response, we pivoted to a specific grade of sugar, adjusting formulations as Stevia sourcing persisted as a challenge. Concurrently, we engaged proactively with Super Stockists and distributors to strengthen our network in anticipation of the upcoming season in South India.

MANAGEMENT DISCUSSION & ANALYSIS

In the month of October, second phase of production commenced, aligning perfectly with market standards. This strategic adjustment spurred our brand's revival, successfully marketing nearly 30,000 cases from both our contracted plants. Repeat orders reaffirmed our brand's resurgence, strengthening our market presence and enhancing our position within the industry.

Despite these accomplishments, the fourth quarter presented new challenges with machinery breakdowns at both contracted plants. This disruption curtailed production capacity, hindering our ability to meet growing market demand.

Notably, our journey through the 2022-23 Financial Year saw us surmount numerous challenges, transitioning from rejected Bounce variants to widespread market acceptance. Our trajectory was characterized by commendable growth, starting with 12,000 cases and culminating in the management of nearly 100,000 cases by the end of the third and fourth quarters.

As we reflect, a crucial realization emerged - relying on two production plants, while efficient, had limitations when faced with unexpected market demand. Hence, the management engaged in discussions to sign 4 additional plants. This expansion, slated for the fourth quarter of 2023-24 and the first quarter of 2024-25, will empower us to serve new markets, spanning Hyderabad, Goa, Andhra Pradesh, and select regions of Maharashtra.

This expansion marks a transformative chapter, underpinned by dedication to quality, innovation, and market leadership. The forthcoming launch into new territories resonates with our vision of achieving a PAN India presence, solidifying our brand as a prominent industry leader.

Overall, Valencia has demonstrated resilience and adaptability in its response to challenges, with a strategic focus on product quality and market expansion. The company's financial performance reflects its ability to overcome hurdles and position itself for future growth in the nutrition industry.

MANAGEMENT DISCUSSION & ANALYSIS

Industry Structure and Developments:

The beverage industry is different from other industries in terms of satisfying consumer needs. It satisfies the thirst of people. The need is satisfied for a very short period of time, after which that physiological need arises again which has to be met. With globalization, faster communication, and transportation, an increased number of educated population and working class, and positive government policies, the beverage industry in India is poised for a major expansion.

The beverage industry is a global grouping of those who supply any and all types of beverages. This is a complex grouping of suppliers, as it includes both non-alcoholic and alcoholic beverages under the umbrella of the beverage industry. This industry encompasses mom-and-pop start-up businesses as well as international conglomerates that generate trillions of US Dollars (USD) in revenue annually.

The beverage industry includes:-

Bottled water

1. Soft drinks – Flavour Based & Fruit Pulp Based
2. Dairy – Milk Shake, Lassi & Butter Milk
3. Energy drink – Caffeinated & Non-Caffeinated
4. Juice
5. Coffee – Miced Based & Water Based
6. Sports drink
7. Tea – Milk Tea & Green Tea
8. Beer – Alcoholic & Non-alcoholic
9. Wine and spirits

Production includes packaging. The Beverage Packaging Market is segmented by Material Type (Glass, Plastic, Metal, Paperboard), Product Type (Cans, Bottles, Pouches, Cartons, Beer Kegs), Application (Carbonated Drinks, Alcoholic Beverages, Bottled Water, Milk, Fruit and Vegetable Juices, Energy Drinks, Plant-based Drinks, etc.

MANAGEMENT DISCUSSION & ANALYSIS

DISTRIBUTION MODELS

1) Direct Store Delivery (DSD)

The first is the Distribution process which involves moving product from a manufacturing plant via a Distribution Centre or a Bin (small storage location with no warehouse labour) to the retail outlet. In this form of DSD, sales are made directly at the outlet level by a Route Sales Representative (RSR). The advantage of this approach is that our products are handled with care, stay fresh, and are merchandised for maximum visibility and appeal. This approach also allows us to move new products into distribution quickly and to monitor how the product is selling. Of course, there are variations of this approach. For example, some RSRs are responsible for loading their truck/van inventory (Traditional RSR Picking). In other markets, a plant warehouse employee is responsible for loading the truck/van inventory based on a forecasted order (Pre-Pick or small format). In other (larger) markets, a large 24' truck is preloaded by warehouse employees (Bulk 24).

For organized trade, sales are made by a Sales Manager or Account Representative (in the case of Pre-Sell) or by an HQ Sales Manager (or Account Rep.), who is selling to a retail organization with a central buying office (in the case of HQ-Based selling to the organized trade). As noted above, the fact that our RSRs are in the stores merchandising the product has a number of benefits. The Pre-Sell or HQ-based version of DSD allows the RSR (really more of a pure merchandiser in this model) to focus on these aspects while allowing a dedicated salesperson to handle the selling.

2) Distribution Centre

This is a centrally managed process where products are bulk-shipped to a broker's DC or warehouse (e.g., Spencer's). Then, the 3rd party distributors move our products to the retail outlet, and retail store employees stock the shelves. Clearly, this is a less expensive distribution strategy, but we forfeit the "personal touch" advantage we have with DSD methods. Such a model is prevalent in Organized Trade. In a slight variation to the first DC model, this centrally managed process is where products are bulk-shipped to a retailer's DC, and local retail employees stock the shelves. Like the Broker-Warehouse approach, this approach works best for products that are less fragile, slower turning, and less likely to be impulse purchases.

MANAGEMENT DISCUSSION & ANALYSIS

3) Vending Service Model

A group of centralized Customer Development Reps take orders directly from food service and Vending 3rd party distributors and large vending operators. All the Beverage-related products are shipped directly to these customers on dedicated loads from the appropriate units. Final delivery to the end-user (schools, stadiums, etc.) is handled by the 3rd party foodservice or vending distributor.

ALTERNATE SALES AND DISTRIBUTION MODEL (AS & D)

The Beverage companies make every effort to adapt the model to fit the needs of a particular marketplace. The primary difference between AS & D and traditional DSD lies in ownership of the resources required to perform the work, namely assets and people. Typically, AS & D systems are put into place where there is insufficient scale to justify a DSD operation, or where the market is emerging and cannot support the fixed cost commitments needed to operate DSD. It is most common in markets with numerous retail outlets and relatively low drop sizes. AS & D systems help variable cost structures while at the same time maintaining all the functionality of DSD. In other instances, the accessibility of a particular geography or territory can be greatly improved by using entities long-established in these areas.

NOTES

Explanatory Notes to results dated 31 th March 2023.

The reported loss includes following expenses that are nonroutine in nature. Few of these expenses will fetch is long term benefits but accounting standards does not permit it to be capitalized.

1. Claim Settlement:

Valencia has trade claims raised during Covid Lock Downs. Upon leaving of the then entire team, the trade claims remained unsettled. From April 2022 – March 2023 we have settled trade claims of Rs.24,87,500/- towards the consolidated claims in the form of free goods of the same value and the outstanding salaries. The above claim amount has been given as free goods and hence not included in sales amount. Had these goods been SOLD, sales would have increased by Rs.17,88,435/-

2. Valencia Stevia Trails, Rejection and Acceptance:

Back in August 2021, when the company was restructuring and rebuilding the entire product range, the GST Board levied 28% tax and 12% Cess on all the carbonated beverages across the industry. Furthermore, Due to this reform the use of Apple Juice Concentrate (to qualify as Fruit Beverage) in the beverage became obsolete.

We at Valencia revised the entire formulation with a vision of providing a healthy beverage. We decided to replace sucralose (Bad Sugar) from our formulations with Stevia (Plant based Natural Sweetener).

During these stages when our team was rebuilding the whole new formulation with natural sweetener, the availability and the sourcing of Stevia became a challenge. Stevia being a natural plant-based sweetener has different grades which determine its sweetness. We then found a vendor at Mumbai who could provide us Stevia in sizeable quantity for mass production of our PET bottles.

We then took laboratory trials with the supplied stevia that gave us desired results in terms of sweetness. Here the masking agent (to mask bitterness of stevia) and the stevia were introduced separately in the formulation.

NOTES

When the same stevia was used for our commercial production, the of blading masking agent with stevia in the formulation ab initio resulted in masking stevia bitterness but as a side effect reducing its sweetness. The reduced sweetness resulted in rejection and return of the entire batch.

This Batch size was production of 4000 Cases (one case 30 bottles) which led to a loss of about Rs.5,60,000/- to the company. All these Cases were to be destroyed and claims paid to the Distributors. These claims were in the form of free goods of the same value. Had these goods been SOLD, sales would have increased by Rs.5,60,000/-

Sourcing Stevia from a reliable vendor became a challenge due to its non-availability in the market. But after a thorough and extensive market research, we came across world renown manufacturer with whom we ran a laboratory trial along with a commercial batch production using their Stevia and were successful in achieving the desired results. With the use of Stevia grade, our entire batch acceptability in the market increased to 100%. Since August 2022 we are using this Stevia grade in all our products.

3. New Product Developments:

Valencia traditionally operated in Pet Bottle Beverage Sector that is essentially cyclical. Major Sales happens during February to May. NOTES

4. Bounce Aluminum & PET Cans and Mints & Sachets:

Valencia Nutrition after getting encouraging results in the PET bottle division needed to expand and explore into other horizons of the industry. After getting strong hold into the formulations, designing, branding, logistics, production and other important aspects of the industry we commenced our foray into Cns Industry.

Diving deep into the nuances of this product and getting successful results in formulations, we planned to make it more efficient; which led us to develop a new product called PET cans. PET cans have body of PET and lid of Aluminum, increasing our profitability in any given transition.

This enabled our company to enter the market with Aluminum cans and PET cans. In order to have the FIRST official reveal of our products we chose a convention and exhibition happening at Alila Fort Jaipur during September 2022. The event had leaders in HORECA industry present there, under the Royal shade of Maharajas and Maharanis of North India who are Proud owners of Indian heritage's forts and havelis.

We were thrilled with the amazing feedback and constructive criticism we got from the visitors of the event, concreting our confidence in the development of our new drinks. Following expenses were incurred for sampling and Launch of aluminum cans in the states of Rajasthan, Delhi, Gujarat.

We also had another Major launch event for Aluminium and PET cans in the Capital of India during the month of March 2023.

INDEPENDENT AUDITOR'S REPORT

TO,
THE MEMBERS OF VALENCIA NUTRITION LIMITED

Report on the Audit of the Standalone Financial Statements

1. Opinion

We have audited the standalone financial statements of VALENCIA NUTRITION LIMITED ("the Company"), which comprise the balance sheet as at 31st March 2023, and the statement of Profit and Loss, and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information. (hereinafter referred to as the "standalone financial statements.")

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, and its loss and its cash flows for the year ended on that date.

2. Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

3. Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

FINANCIAL STATEMENTS

Sr. No.	Key Audit Matters	Auditor's Responses
1.	<p><u>Assessment of Going Concern Assumption:</u> The Company's net worth is negative and it has incurred losses. The Company has started operations which in the opinion of the management will enable the Company to have profitability and enable a turnaround.</p>	<p><u>Principal Audit Procedures:</u> Our audit approach was a combination of test of internal controls and substantive procedures which included the following:</p> <ul style="list-style-type: none"> • Reviewed the satisfaction of Financial obligations during the financial year • Reviewed the infusion of funds by way of long term loan by the promoter director • Reviewed the activities during the financial year for resumption of business and verified the re launch of products and launch of new products.

4. Information Other than the Financial Statements and Auditor's Report thereon The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Annual Report, but does not include the standalone financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this Auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

FINANCIAL STATEMENTS

5. Responsibilities of Management for Standalone Financial Statements The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

6. Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

FINANCIAL STATEMENTS

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone

financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

FINANCIAL STATEMENTS

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

7. Report on Other Legal and Regulatory Requirements

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

FINANCIAL STATEMENTS

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk.

The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the company internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

FINANCIAL STATEMENTS

Opinion

In our opinion, the company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2023, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Examples of such estimates include provisions for doubtful debts, future obligations under employee retirement benefit plans, income taxes, the useful lives and provision for impairment of fixed assets and intangible assets. Management believes that the estimates used in the preparation of financial statements are prudent and reasonable. Future results could differ from these estimates.
